## **Capability Statement**

Ipsa Solutions, LLC is a women-owned, partner-led technology firm specializing in artificial intelligence, cloud architecture, automation, cybersecurity, and digital modernization. Ipsa delivers clear, secure, mission-ready engineering solutions without unnecessary overhead. Founded and staffed by senior technologists with decades of experience across Air Force, Army, Joint, Enterprise, and Healthcare missions, Ipsa transforms complex technical challenges into straightforward, secure, and scalable solutions aligned with federal operational needs.

## **Core Capabilities**

- Artificial Intelligence & Machine Learning – AI/ML model development, tuning, intelligent automation, AI-ready architectures.
- Cloud Architecture (AWS & Azure) – Cloud migration and modernization, hybrid/multi-cloud, Kubernetes and secure cloud patterns.
- Automation & Digital Modernization – Workflow automation, DevSecOps, CI/CD, Infrastructure-as-Code.
- Custom Development & MVP Delivery – Rapid prototypes, lightweight mission applications, dashboards, end-to-end delivery.

## **Differentiators**

- Women-owned. Women-led. Women-built.
- Deep technical expertise in AI/ML, cloud, cyber, and enterprise modernization.
- Experience across Air Force, Army, Joint, Tactical, and Healthcare missions.
- Secure-by-design engineering aligned with RMF, STIG, Zero-Trust, and ATO requirements.
- Agile delivery with rapid prototype-to-production capability.
- Proposal development expertise supporting technical writing and solution shaping.
